

JOIN US AT OAK TREE FOR LITTLE ACORNS & JR. ACORNS SUMMER CAMP

This summer we will be offering a fun summer camp that will focus on social skills as well as reading and writing skills. The camp will be led by a speech pathologist, an occupational therapist, and a social worker.

A social skills group can help your child learn how to navigate conversations and relationships, develop problem-solving skills, and manage emotional regulation.

Reading and writing are two of the most important skills for children to learn. They are correlated with academic success, self-esteem, concentration, vocabulary, memory, and critical thinking skills.

THESE GROUP SESSIONS MAY BE A GOOD FIT IF YOUR CHILD NEEDS REINFORCEMENT IN:

- social skills development
- following directions
- memory
- listening and attention skills
- reading comprehension and written expression
- letter formation & handwriting
- recognizing sounds/letters
- rhyming
- flexibility when engaging with others
- coping with a range of emotions
- expressing when they are confused or cannot understand information

May be payable by insurance.
